BEDBUG CENTRAL RELEASES REVAMPED FREE BED BUG AFFORDABLE HOUSING RESOURCE GUIDE AND DOCUMENTS PACKAGE

The Complete Bed Bug Affordable Housing Resource Guide Just Got Better!

Lawrenceville, NJ – [BedBug Central](http://www.BedBugCentral.com) has recently released their free, revamped bed bug Affordable Housing Resource Guide for 2019. In addition to the revised Resource Guide, BedBug Central decided to add to the popular guide by including the Affordable Housing Documents Package with it.

The Resource Guide, which features vital bed bug research, [housing authority case study](#) and informative documents such as the “Community-wide” approach by Dr. Richard Cooper, has been well-received over the past year by many public housing agencies.

“What we were seeing among the affordable housing industry was that they found immense value in the original document we created,” BedBug Central’s President Rob DiJoseph said. “So we wanted to take that further and utilize our library of content to provide them with even better resources for 2019.”

DiJoseph explained that they decided to include a variety of documents that would be helpful for both property managers and tenants who are dealing with bed bugs in their community. The Affordable Housing Documents Package includes bed bug fact sheets, management task and fact sheets, how to deal with vacant and surrounding units as well as many others.

“We hope that we are able to provide the industry with the same amount of value in the Documents Package that we have with the Resource Guide,” DiJoseph said. “We just want to be able to use our resources to give back to the Affordable Housing industry. Together we can form an indestructible team to help bring relief back to communities who have been plagued by bed bugs. We’re here and ready to help.”

To download your free copy of the Affordable Housing Resource Guide and Documents Package, simply [fill out the form here](#) and a copy of the documents will be emailed to you.

About Bed Bug Central

[BedBug Central](#) is the nation's most authoritative source for bed bugs and related issues such as health, detection, and treatment. Nationally regarded entomologist Dr. Richard Cooper helped develop the company in 2009, in response to the lack of quality information available on bed bugs. BedBug Central is the manufacturer of the SenSci Volcano® and SenSci BlackOut®, which are interception devices that capture bed bugs, as well as the SenSci Activ®, a bed bug lure developed and tested through laboratory research conducted by Rutgers University.
