Introducing:

UL Listed Power Distribution Products from HM Cragg

To better meet the market demands for **intelligent, scalable** power distribution products that can be quickly deployed, HM Cragg is now designing and manufacturing power distribution units (PDUs) that meet those demands. Our team of highly skilled engineers have designed and built our first tier of products for floor mount PDUs, remote power panels (RPPs), switchboards and panelboards. These products are designed to meet the needs of our UPS, generator, standby DC and BESS customers by offering a **scalable** and **modular** approach with **intelligence** built in, while still maintaining production agility as a primary focus. ***We are proud to be a UL891 Certified Manufacturer!***

Available Now

UL508a power distribution products

- Custom configurations to fit your needs
- PDUs, RPPs, panelboards and switchboards

Coming Soon

UL891 & UL67 products

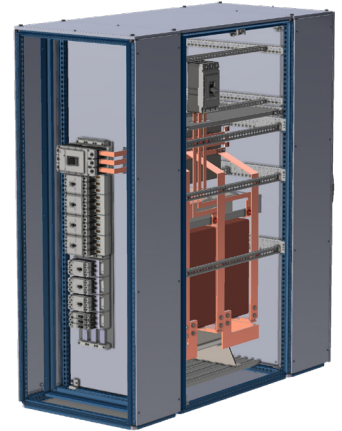

- Traditional panelboard and switchboard designs
- Utilizing Eaton circuit breakers
- Built to meet the highest standards in safety, quality and performance

In Development

HM Cragg UL891 certified products

As a UL891 certified manufacturer, HM Cragg is developing a new line of power distribution products designed for flexibility, safety and performance:

- Modular floor-mounted power distribution units (PDUs)
- Flexible, scalable designs
- Intelligent monitoring & metering capabilities
- Fast delivery and industry-leading availability
