STEP 2 Mystery at the Mansion

Add a LIGHT quarter-square triangle to opposite sides of the DARK $4\frac{1}{2}$ " square.

Then add a light quarter-square triangle to the remaining opposite sides of the dark $4\frac{1}{2}$ " square.

(Note: it doesn't work to add each quarter-square triangle in a clockwise direction...have to add opposite sides, then remaining opposite sides. Don't ask me how I know....)

Repeat to make 16 square in a square units.

MYSTERY IN THE MANSION is considered an "easy" pattern that most everyone will be able to understand. HOWEVER, if you have any questions, please don't hesitate to call the shop, 541-432-6669. Or, send us an email, Cattlecntryqlts@eoni.com. We will be happy to help.
