

Beading Workshop

Community Connections & Wellness Programs for Newcomers to Canada

The YWCA Hamilton has an exciting free program that seeks to bridge the gap between Indigenous Canadians and Newcomers identifying as women, 2SLGBTQIA+ or non binary individuals.

Join Maria Antelo for a 2-session beading workshop. Maria will share Indigenous perspectives on history, moving beyond land acknowledgement and the importance of cultivating connection to land.

Other information that will be shared: bead theory, beading techniques, types of beads, needles, threads, where to buy beading supplies and much more.

Participants will gain invaluable knowledge as well as complete a pair of simple beaded fringe earrings!

Location: N2N Community Food Center (310 lime ridge road west unit 10)

Date: Thursday July 14 & August 18

Time: 1:00 - 3:00 pm
