

Don't Be A Castaway! Prepare to Evacuate!

Identify your evacuation location and route. ([website](#)) Do this Immediately! Then, start getting your list together!

- * [CASH](#) - ATM's may be down.
- * 2-week supply of personal medications, and ibuprofen, acetaminophen
- * Necessary health equip/items – cane, walker, hearing aid (and charger/batteries), glasses, C-pap, diapers, dentures, etc.
- * 2 cases bottled water – One for car, one to leave at home.
- * Non-perishable food that doesn't need to be cooked – for evacuation AND home (cereal, chips, jerky, fruit snacks, peanut butter crackers, etc.)
When you get back home, you may not have power or water.
Grocery stores may be closed or very low on food items and necessities.
- * Flashlights, portable radio
- * Plenty of batteries for flashlights and radio and hearing aids
- * Mobile phone, ear buds, your watch
- * Chargers for phones, computer, tablet, all devices
- * Gas tank in vehicles completely full
- * Extension cord (s) – to use in hotel/temporary home
- * 2 Pair of shoes (1 might get wet/trashed)
- * Manual toothbrush and toothpaste
- * Deodorant, toiletries
- * Is a pet evacuating with you? Don't forget food, collar, leash, kennel, waste bags, pet medicines, stairs, bones and treats, etc.
- * Magazines, books, crossword puzzles, games, cards, etc.

Before you leave your home:

- * Turn off water
- * Clear out freezer
- * Fill bathtub and sinks with water
- * Turn thermostats up
- * Close and lock windows and doors
- * Close blinds, curtains, shutters, etc.
- * Unplug TV/Internet router/anything vulnerable to power surges
- * Important documents and files off the floor or waterproofed
- * Pack a small ice chest if you have one - very helpful in a hotel
- * Move vehicles to higher elevation or to a parking garage
