Bradford Perkins FAIA

Brad Perkins is the founder and Chairman of Perkins Eastman Architects, an 1100 person architectural, planning and consulting firm. The firm is based in New York with 15 other offices in North America and four overseas. The firm serves healthcare, education, science and research, residential, commercial mixed use, hospitality, sports, cultural and government clients across North America and in a typical year in 30 countries around the world. His and his firm's work have been widely published and have received over 800 awards for planning and design excellence.

He has published over 100 articles in the design press and is the author or co-author of nine textbooks on a variety of architectural and planning topics. All nine books were published by John Wiley & Sons. He serves on a variety of non-profit boards and is on the faculty of Cornell's College of Architecture, Art and Planning. He has a BA in Latin American History from Cornell, a BArch from Cornell and CCNY, and an MBA from Stanford.

Nicholas Leahy, AIA, LEED AP

Nick Leahy is Co-CEO and Executive Director at Perkins Eastman, His projects are distinguished by their critical balance of place, program, and craft. Key to his design methodology is to investigate each site's relationship to its environment, history, and its intended use. His designs for civic buildings, performing arts centers, museums, and institutional facilities can be found across the United States, Europe, Asia, and the Middle East. In addition to his work on the Tenement Museum, these projects include the internationally renowned TKTS Booth in the heart of Times Square; the winning international design competition entry for the Shanghai World Expo Public Events Center; the Museum of Natural History Spitzer Hall of Human Origins and Butterfly Conservatory; the Container Globe, a modern interpretation of the famous Globe Theater designed and constructed entirely from shipping containers; and numerous others.
