

2026 SUMMER INTERNSHIP REQUEST FOR PROJECT APPLICATIONS

RUTGERS HEALTH
Center for Biomedical Informatics and Health Artificial Intelligence
Institute for Health, Health Care Policy and Aging Research

OVERVIEW

This RFA solicits faculty project applications for the Summer Internship initiative, designed to provide a platform for undergraduate and MS Rutgers students to participate in hands-on projects focused on Biomedical Data Science and Health AI, and introduce students to careers in Computational Biomedicine and AI in Healthcare.

PROGRAM DETAILS

For more details, click to view RFA

- Each internship is a nine-week summer program. Student participants will be hosted by Rutgers Health faculty, offering summer projects in Data Science, Biomedical Informatics, Machine Learning, Health AI, or related fields.
- Seven (7) summer projects will be selected each year. PIs of selected projects will identify the best BS and MS students to participate as summer interns. The final intern selection will be made by the Summer Internship Review Committee.
- The program will culminate in a Summer Internship Symposium on July 31st, 2026, where summer projects will be presented by the participating students.

KEY DATES

- **Application issued:** Friday, October 3, 2025
- **Information webinar:** Wednesday, Oct. 15, 2025 3-4pm
- **Faculty proposal deadline:** Monday, Nov. 10, 2025
- **Proposal Selection and Posting:** Monday, December 15, 2025
- **Student Applications Accepted:** December 16, 2025 – January 19, 2026
- **Student Interviews:** February 23 – March 6, 2026
- **Final Student Selection:** March 23, 2026
- **Summer Internship:** June 1 - July 31, 2026
