

Power Your AI with GlobalSource Partners' MCP Server

Your AI is only as accurate as the data fueling it. Give your AI the intelligence it needs to understand developments in emerging markets by connecting it to GlobalSource Partners' research with our MCP Server. Accelerate your workflow with AI-powered answers informed by the independent analysis of the brightest minds in emerging markets. With a few keystrokes, summarize information, find specific details with ease, and draw comparisons across all the countries you subscribe to. Power your AI with insight from GlobalSource Partners.

Exceptional analysis, amplified by AI

- **Query the best research** — Make sure your AI is drawing its results from the independent analysis of the brightest minds in emerging markets.
- **Accelerate your research process** — Find relevant insights without manually searching through hundreds of reports.
- **Dig into what matters** — Quickly identify the key themes, risks, opportunities, and conclusions buried in detailed analysis.
- **Connect the dots** — Compare perspectives across sectors, countries, and markets to reveal relationships that may otherwise be difficult to spot.
- **Seamlessly integrate into your workflow** — The MCP Server functions with your existing AI, keeping your workflow streamlined instead of requiring an additional platform and login.
- **Keep your privacy** — We have no access or visibility to your prompts, and they are not used to train our AI.

Our MPC Server is available with:

Gemini

ChatGPT

Copilot

Perplexity

Claude
