## **Future Forecast: The Public Health Department's Outlook Over the Next Four Years**

This course provides an overview of the Foundational Public Health Services (FPHS) and Montana's 21st Century (21C) transformation effort, exploring how these initiatives aim to modernize and strengthen public health systems. Participants will learn why these transformations are critical for improving system alignment, addressing emerging health challenges, and building sustainable, resilient public health systems for the future.

By the end of the course, learners will be able to:

- Understand the FPHS Framework
- Explore the 21C Transformation Effort
- Recognize Key Challenges and Opportunities: Identify the current challenges facing Montana's public health system and the innovative solutions embedded within FPHS and 21C transformation efforts.
- Evaluate the Impact on Public Health
- Appreciate the Broader Context and Importance

- **Date/Time:**

5/21/25

9:00 am - 10:30 am

- **Cost:** No Cost

- **Location:** Zoom

### **Meagan Gillespie, MBA**

Meagan Gillespie works in the local and tribal support program for Montana's Department of Health and Human Services. She has held previous roles in healthcare and public health. Meagab works directly with local and tribal health departments across Montana.

Sarah Compton is a Public Health Program Officer for the Montana Public Health Institute. In this role, she is focused on building capacity of local, tribal, and state public health organizations by providing technical assistance, policy analysis, and communication.
