INDIGENOUS DETERMINANTS OF HEALTH: APPROACHES FOR MEASURING AND EVALUATING INDIGENOUS HEALTH

Indigenous health researchers from the United States and across the globe have carried out considerable work to identify, explore, and establish the Indigenous Determinants of Health framework. This presentation will examine the relationship between Indigeneity and health, as well as introduce participants to tools designed to measure and evaluate the Indigenous Determinants of Health.

Damian Chase-Begay, PhD, MS
(Mandan/Arikara)
