For Immediate Release:

St. Stephen Premium Organic Wines Come to Colorado

St. Stephen Vineyards and First Step Beverage Launch New Line of Organic Wines

San José, California, December 16, 2019 – St. Stephen Vineyards, LLC today announced the introduction of its premium organic wines in Colorado. Each has won medals in key blind tasting wine competitions, including Tasters' Guild, Indy, Los Angeles International, San Francisco International, and the Sommeliers Choice Awards.

Founded in 2008, St. Stephen Vineyards is headquartered in the Colchagua Valley of Chile, with U.S. sales offices in San José, California. St. Stephen Vineyards is a cause-based organization, whose proceeds benefit environmental organizations.

St. Stephen Vineyards is represented in Colorado by First Step Beverage Company. *"We're excited to introduce these wines,"* said John Edgerly, Vice President of First Step Beverage in Colorado. *"We're responding to the growing demand for premium organic wines. We are working to become the market leader in Colorado for premium organic quality wines".*

St. Stephen Vineyards owner, Tim Edwards said, *"Organic wine is the fastest growing segment in the beverage market. We're grateful for the recognition we've received, and medals won in the past year. We are excited to continue our success in Colorado. We are thankful that, through our efforts, we are able to contribute to the mitigation of climate change."*

Edwards continues, *"Much of our success has been built upon our wine's excellent quality, and the experience and passion of our winemaker, José Antonio Bravo von Bischoffshauser".* Says José Antonio, *"Wine is a noble product of great tradition throughout the course of human history. It is a source of joy and satisfaction and brings people together in happiness. This is why I love making wine."*

St. Stephen Vineyards, LLC is based in San José, CA and imports and distributes St. Stephen wine in the United States. Viña St. Stephen, Ltda. is based in San José de los Lingues Chile with certified organic vineyards located in the Colchagua Valley of Chile. A "cause marketing" organization, St. Stephen donates profits to helping environmental causes in the United States and Chile. St. Stephen Vineyards actively works to help mitigate climate change, and in December 2019 was invited to present at the annual United Nations Climate Change Conference (COP25) in Madrid.
