

Women in Construction Week

SPONSORSHIP OPPORTUNITY

NAWIC is proud to host a Women in Construction Panel for New Castle County Vo-Tech students on Wednesday, March 4 at the NCCVT District Office where industry leaders will share their real-world experiences in the construction trades. Panelists will discuss their career paths, the rewards and challenges of working in the industry, and the opportunities available to women pursuing trade careers.

We are seeking four (4) event sponsors at \$500 each to help make this experience possible for students. Sponsorship funds will directly support event costs such as bus transportation, student lunches, materials, and logistics. This is a limited sponsorship opportunity with high visibility and direct engagement.

Sponsor Benefits Include:

- Direct exposure to approximately 100 female students enrolled in construction and trade programs
- Company signage displayed prominently at the event
- Recognition on NAWIC's website and social media channels
- Opportunity to deliver a 5-minute presentation directly to attending students
- Optional opportunity to cover or contribute toward student NAWIC memberships

Why Sponsor?

This event offers a rare and impactful opportunity to connect with future professionals at a pivotal moment in their career journey. Sponsorship not only supports student access and engagement, but also positions your organization as a champion for women, workforce development, and the future of the construction industry.

Spots are limited and expected to fill quickly. Please scan the QR code or contact us if interested in sponsoring.
