

LOW-LIGHT VEHICLE

5 HOURS

PRICE

\$235

THIS IS NOT A BEGINNERS COURSE

*****REQUIREMENTS: PISTOL 1 OR INSTRUCTOR APPROVAL*****

This Low-Light Vehicle Course will be covered in two parts, live fire and Force on Force (SIM).

Part 1 is designed to educate the participant on how to defend themselves, family, or friends, from in and around a vehicle. The average commuter spends an estimated 1 to 3 hours each day in traffic. As such, learning to defend yourself in this type of environment is essential to your safety during the day AND at night! The core topics covered in this course will be the principles of how to effectively and safely shoot your handgun and defend yourself and your family while in and around the vehicle. Additionally, students will be taught how to communicate with each other as they attempt to move from car to cover. **Part 2** of the course will cover Force on Force (SIM). Students will now have the opportunity to apply the concepts and techniques learned during the first portion of the course against a live opponent.

We will provide SIM Guns & protected equipment (PPE) with light, but students are required to bring a handheld-light, low-light or no-light is imperative for survival.
