

Job Number	01.09.04-417
Job Title	Project Management Internship - Summer 2018
Labor Location	Colorado Springs, CO
Class	Intern
Position Description	<p>Dynetics, an employee-owned company, is seeking talented Summer Interns to join a diverse team to create unique solutions for complex problems. With offices across the United States engaging in the defense, space, cyber and commercial fields, Dynetics provides responsive, cost-effective engineering, scientific and IT solutions.</p> <p>Dynetics' summer intern program is actively seeking college students (Sophomore, Junior, Senior or Grad) to work at our Colorado Springs facility over the summer break (May, June, July, and August depending on student availability). The intern program will allow students the opportunity to gain valuable experience in support of on-going projects in various disciplines at Dynetics. This internship provides exposure to project management, engineering management and logistics. Additionally, our internships have the possibility of leading into future full time work.</p>
Basic Qualifications	Student must be a U.S. Citizen. Student must be working toward a Bachelors or Master's degree in Project Management or equivalent Business Administration degree. Engineering degrees with a project focus will also be considered. Overall GPA of 3.0 or above is required.
Other Qualifications	The ability to work up to 40 hours per week during the summer is required.
Security Requirements	Candidate must be a US Citizen and possess (and be able to maintain) a Final Secret Clearance or meet the eligibility to obtain (and maintain) a Secret Clearance.
End Date	04/27/2018

Dynetics is an EEO/AA Employer M/F/Disabled/Veteran
