

**Ticks crawl up, they don't jump, fly or drop from trees.**

# 10 THINGS EVERYONE SHOULD KNOW ABOUT TICKS

POWERED BY SYSTEMS 24-7

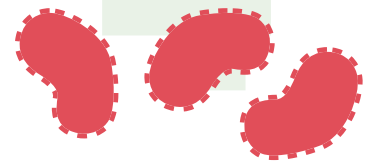

**Ticks come in small, medium and large sizes.**

**Ticks can be active in the winter (if the ground is not snow-covered or frozen).**

**Deer ticks transmit Lyme Disease (other ticks can transmit other diseases).**

**You have at least 24 hours to remove a feeding tick before it transmits an infection.**

**Deer tick nymphs are the size of a poppy seed.**

**1 out of 4 nymphs carry Lyme Disease and other nasty germs.**

**Use pointy tweezers to easily and safely remove a tick.**

**You can buy clothing with built-in tick repellent.**

**Ticks do not swim (flushing them down the toilet is a safe means of disposal).**
