

All that comes later, starts now.

Frederica Academy

Enriching the Mind, Body, and Spirit.

As a Pre-K through 12th Grade, college preparatory school, Frederica Academy believes that a focus on *now* fuels the promise of *later*.

For every age and grade, each student's needs and strengths are nurtured and challenged through integrated curriculum, experiential learning and an individualized approach that connects learning today to achievement tomorrow.

In Lower School, educational foundations are laid, enriched by foreign language, music, drama and visual arts. In Middle and Upper School, these fundamentals support students who are eager in their studies, involved in school activities and engaged in the community and world around them.

Our class sizes are small. Our child-centered teachers are gifted. And our students are well-rounded in their experiences and well-prepared for all that lies ahead. The benefits begin now!
