## ~ DIRECTOR'S NOTES ~

---

When the FA Thespians first envisioned *Little Women* as our Spring '21 musical, way back in May 2020, little did we know that The Covid-19 pandemic would still rage on as the curtain opened. After the heartbreak of shuttering *Little Shop* last year, we chose *Little Women* to reflect on, and to try and understand, what we were living through: A brutal pandemic, a bitterly divided country, an economy in turmoil, and a modern culture that seemed to stretch the norms for free speech, immigration, and equity.

Louisa May Alcott's story *Little Women* is timeless – and timely. Written in 1868, it is the fictionalized account of its author's young life with her sisters. While certain aspects of the story have been altered in this musical adaptation, the heart of Jo's story is still relevant today. Set during the Civil War (1860's), the four March sisters come of age while their mother, "Marmee," and their "Aunt March" encourage the girls (and their male suitors) to achieve their dreams.

With the backdrop of war and the Scarlet Fever pandemic, young men and women of the Victorian age were expected to live up to their elders' expectations in order to earn a favorable economic and social position. Young men were considered honorable when they chose to join the army, or to follow their family's businesses. A woman who chose to earn her own living, and not to marry, was considered un-ladylike. But what if a young Victoria person felt compelled to choose another life path? These themes seem to resonate with today's students.

As the cast began to work on the production (back in October 2020), new themes emerged. The story seemed to take on another meaning. Notice how Jo, her sisters, and the men, all have transformational moments. They change, become aware, and grow. Writing is a major theme for each character's expression. Jo is, quite obviously, a writer, but so is Marmee. John Brook and Professor Bhaer are writers and scholars. Notes, letters, telegrams, newspapers, and novels express how the characters communicate. Jo is always rewriting her story – and the story of her life – to make it "better."

What is interesting for teenagers and young people today is becoming aware of who you really are. Awareness happens for most every character in *Little Women*. Marmee, the emotional heart of the family, deepens her capacity to love and accept. Mr. Laurence and Aunt March learn to give their wreath and time away in order to support the next generation.

Overall, live theater is the most collaborative art form. With Bruce Post (Assistant Director), Kathleen Turner (Pianist), the wonderful cast and crew, and so many teachers and parents as supporters, there have been many who contributed to the re-telling of Louisa May Alcott's beloved American novel. In the end, I endeavored to capture the students' playfulness and creativity. Rather than dwell on dramatic and romantic plot points, I often gave the actors a note to be just as playful on stage as they were offstage. In my observation, the cast members were really behaving more like brothers, sisters, and family friends.

Just like the March family, disease, cultural change, and economic and political turmoil have been a part of our lives this past year. However, we centered on the loving relationships to get us through. This is what we wanted to highlight in our production of *Little Women*.

Enjoy the show!

Tess Nielsen, DMA
