

COOPER PANOS

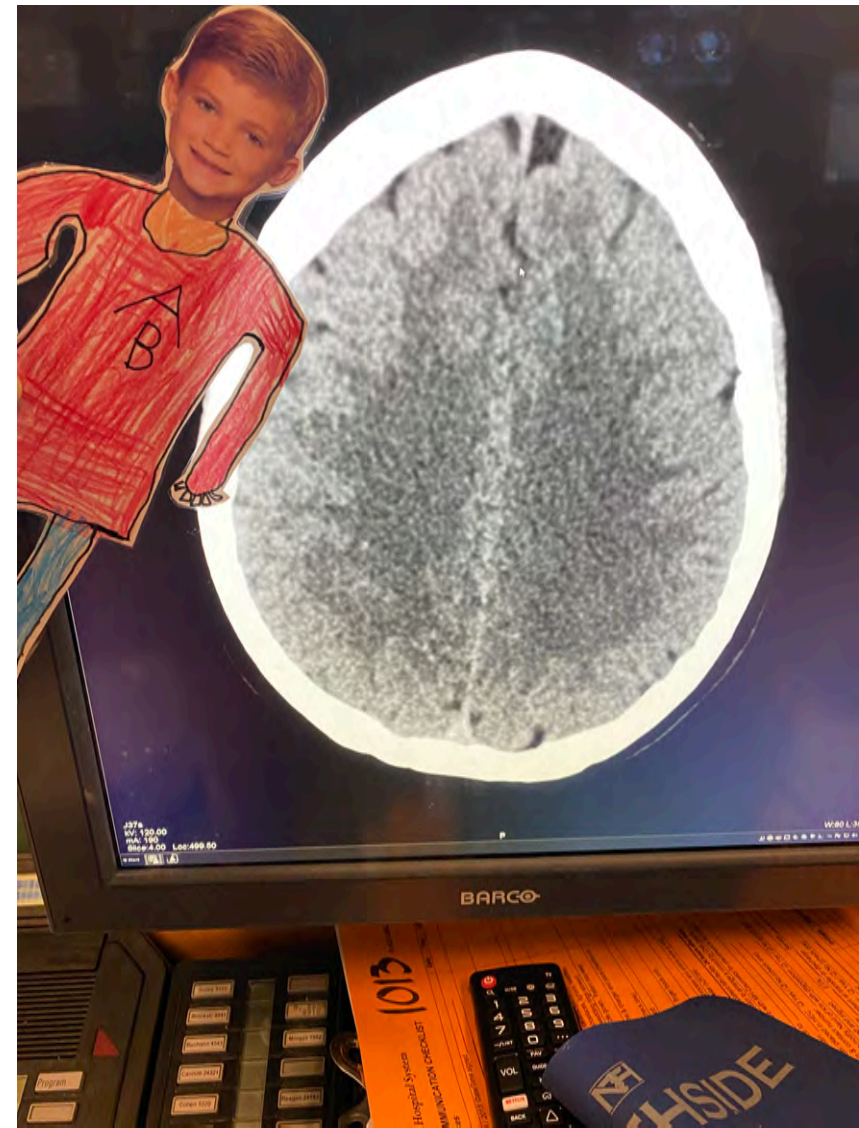

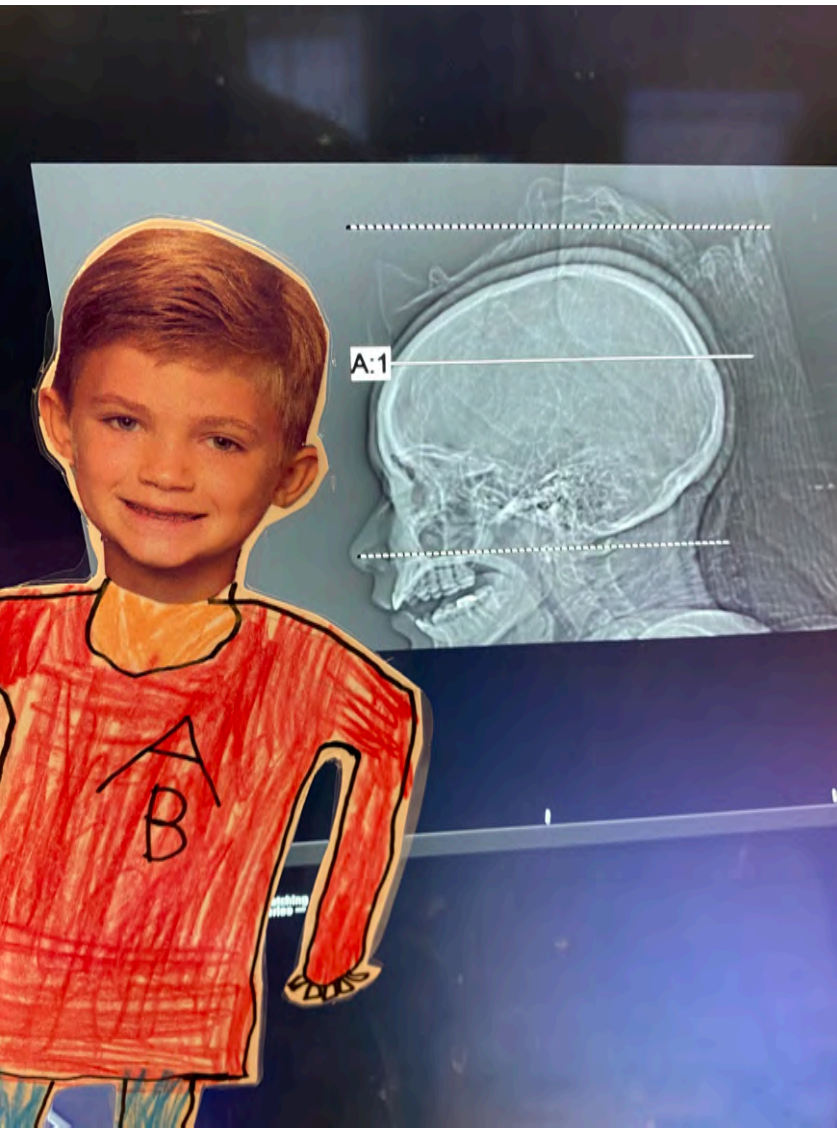

Cooper caffeinated with Starbucks while admiring an inspirational quote by Mr. Rogers written on the parking deck wall when the Pandemic first began before a 12 hour shift in the Emergency Department.

Cooper assisted Ms. Elsa from Environmental Services with the VERY important job of cleaning exam rooms and keeping the department clean.

Cooper reviewed images taken to diagnose disease or injury.

Cooper's last visit before returning home to St. Simons was to a chiropractor, where he saw spine models up close and got an alignment.
