

## Brenda M. Jackson

Brenda M. Jackson has joined Care Connections & Education as a Quality Improvement Specialist and is a graduate of Oregon Health Sciences University with a Bachelor of Science in Nursing. “Even when we do not actively participate in our destiny, we are still on a chosen path. Life has a way of making decisions for us.” Nina Guilbeau. After raising my two oldest children and guiding my youngest in Junior High School, my role now is to help others to achieve their dreams and goals in all facets of life through positive, inspirational leadership and education. Having worked for Migrant Head Start (O.C.D.C) in the past, I am particularly excited to facilitate enrollments with Spanish speaking care providers.

In addition to my passion for entrepreneurship and empowering others to discover their inner changemaker, I love substitute teaching here in the Klamath Basin. I enjoy traveling with my family and experiencing food from different cultures. I like to think that success is not how high you have climbed, but how you make a positive difference to the world.

“The key to successful leadership today is influence, not authority.” Ken Blanchard
