

During this incredibly challenging time for our foster children, the CASA Foundation continues its mission to cover the unmet needs of children in care. Although tutoring at the Tutoring Club has been temporarily suspended and fun activities are cancelled, those things will resume in the coming months and foster children may need more assistance and support than ever. Let's make sure this summer is as special as possible for foster children who have already missed out on so much. Special needs requests can be made at our website [www.casafoundationlv.org](http://www.casafoundationlv.org).

Not surprisingly given the uncertain nature of the next few months, the CASA Foundation's annual Grad Bash has been cancelled. Fortunately, each graduating senior will still get their gift bag full of fun and useful items to help them transition into independent living. Also, we plan to recognize those 2020 high school graduates with some awesome swag at the Back to School event which is currently scheduled for early August.

The Foundation would also like to announce the election of new president, Lorrie Curriden. Many of you may know Lorrie who has been a committed CASA volunteer for more than 20 years and who, over the last several years, has also loved her position as the Special Needs Chair of the Foundation.
