

Dear Parents,

As your school transitions to online, distance-based learning to help prevent the spread of COVID-19, we wanted to take a moment to introduce ourselves here at Techabee. We are an education technology company located in Davis, CA, that helps support your school's technology program. We work with the administration and teachers at your school to help with everything from network setup, to device management, and technology planning.

As you continue supporting your child in distance-based learning we wanted to make sure you knew that we are happy to be a technology support resource for you as well! If you are having trouble with your student being able to log in, participate in online learning discussions, or complete an assignment because of a technology hurdle our support team is here to help!

Please feel free to reach out to us at [help@techabee.com](mailto:help@techabee.com) or give us a call at (925) 494-2101 if you need anything!

The Techabee Team
