David Decker is Chief Operating Officer with Prime Group Holdings, currently operating 164 locations in 24 states, a slight reduction after a recent portfolio sale of 58 locations in our Fund I portfolio and now actively acquiring and expanding operations in our new $1.5B storage fund.

David started in the storage industry in 2004 with Extra Space Storage from IPO to 1400 locations in 2017, learning the business through a progressive series of positions in the operations team including Operations Analyst, Revenue Manager and District Manager in Utah and Northern and Southern California. He left the Extra Space team as Sr Director of Operations to join a privately held storage portfolio, Guardian Storage, as VP of Operations and in early 2020 joined Prime Group as COO.

David studied Finance and followed with an MBA at the University of Utah. He now resides near Saratoga Springs, NY with his wife and 6 kids (after surprise twins six years ago). He is generally found being active in trail running, fly fishing, ultra-marathoning, kid-carpooling and other loner sports.
