

YFCOB Newsletter Announcement of CDC Director Kim Barron Moore

The Child Development Center Board is pleased to announce that Kim Barron Moore has been named Director of the Child Development Center. After a process of reviewing applicants Kim was chosen as the most qualified candidate. She excitedly accepted the position and named the following dreams/vision for the center: to be a greater part of the church, develop full enrollment, meet more of the congregation, & relate well to parents.

With 20+ years' child development experience, she holds an AA in Applied Science from Harrisburg Community College, and an AA CDA in Social Sciences. Additional training and certifications include CPR, Fire Safety, Mandated Reporter, and STARS 101 & 102. Her work in childcare her whole adult life, it then became her calling to inspire and lead others to be the best teachers they can be. She wants to pour her knowledge and passion into leading a center that provides safe and educational learning for children, inspiring the people that work within the center.

In 2010 she worked with Penn State to develop the now used PATHS curriculum. She is a member of KAPPA Phi Theta, as she was in the top 10% of her academic classes, maintaining a 3.7 GPF and above. She is a member of the 2022 National Honor Society of Academics and Success.

Kim is married to Shannon Moore and together they are dedicated to their children: Mylee, Brayden and Gage. While Kim is a very dedicated and hard worker her weekends are usually spent with her children playing sports, recreating, & enjoying time with her family.

The board has been encouraged by Kim's abilities and dedication during this interim time while we completed our search. On behalf of the board we express our thanks and appreciation to her, the staff, the parents of the children in the CDC and the congregation for their patience as we worked through this process of filling the Director position.

Sincerely,

Deb Klinedinst

Chairman

YFCOB Child Development Center
