From Oct. 10 Medfield Insider…

Medfield Board of Health Offers COVID-19 Vaccines

As a result of a recent grant and the addition of public health nurse Brenda Healy, Medfield is now able to provide valuable health services to residents.

The newest offering: COVID-19 vaccinations that cover the new variants B4 and B5.

Healy is offering the COVID-19 vaccination clinics at Medfield Town Hall **every Tuesday from 2 to 6:30 p.m., except for the 1st Tuesday of each month when the clinic ends at 5 p.m.** due to Board of Health meetings. She will also make home visits to administer vaccinations if someone is homebound.

To sign up for a vaccination, click here; to schedule a home vaccination, call Healy at 508-906-3044.

Beyond COVID-19, Healy also provides blood pressure clinics for Council of Aging at The Center virtually every Wednesday from 9:30 a.m. to 3 p.m. (unless a meeting conflict arises).

At the current time the Town of Medfield is not providing flu vaccinations to residents, but they may become available in the future.
