**Project Definition and Examples**

A project is defined as a discrete set of connected activities with a distinct beginning and end. Projects can be one-time events such as a festival, show, or exhibition, or a series such as a roster of classes, or thematically connected concerts, productions, or arts program.
For example: a music organization could apply for a PGO to support a three-performance series of free outdoor concerts at public parks. However, the same organization could not apply to support its entire nine-month season of programming since that reflects that totality of the organization’s programming and falls outside RISCA’s definition of a project.

The parameters for this program are intentionally broad to be responsive to a community’s needs over time. In the past, this grant program has funded from large cultural festivals with thousands of people in attendance to small programs with less than a dozen people involved.

Hypothetical Examples:

- **Example One:** a free, day long summer cultural festival at a public park featuring live performances, including R.I. based performing artists.
- **Example Two:** a free series of art classes led by a teaching artist at a social service nonprofit for 12 adults with development disabilities.
- **Example Three:** a low-cost dance program for eight young people within a specific cultural community. Taught by artists or culture-bearers from that specific cultural tradition with the intention of preserving and perpetuating these cultural traditions among future generations.

**Project Value to the Community**

Core to all funded programs is a connection and value to the community being engaged with by the public, fulfilling RISCA’s charge to facilitate a meaningful cultural life for all Rhode Island residents.

Per guidelines from the National Endowment for the Arts (NEA) and our agency values around equity and access, programs that engage underserved communities as defined by the NEA are particularly suitable for Project Grants for Organizations.

For additional examples review past grantees.

Glossary

ALAANA (African, Latin American, Asian, Arab, Native-American): This is an acronym for Asian, Latina/o/x/e, African, Arab, and Native American intended to be inclusive of any individual, culture, community, or arts organization from these racial/ethnic identity groups. The term intentionally names these broad racial and ethnic identities rather than grouping them under the more generic term “people of color.” Source: Grantmakers in the Arts.

BIPOC: An acronym that stands for Black, Indigenous and people of color. The term is meant to unite all people of color while acknowledging that Black and Indigenous people face different and often more severe forms of racial oppression and cultural erasure as consequences of systemic white supremacy and colonialism.
