Flame Innovation Releases the Mini Me Non-Electric Pellet Stove — Certified, Compact Heat.

Post Falls, ID — [06-10-2025] – Flame Innovation is excited to announce the release of the **Mini Me Non-Electric Pellet Stove**, a powerful, compact heating solution built for homes, cabins, RVs, mobile homes and more. This **fully EPA-certified, UL-listed, and CSA-approved** stove delivers exceptional heat output, long burn times, and safety-tested reliability — all without the need for electricity.

With a **BTU range of 12,567 to 29,388**, the Mini Me efficiently heats up to **1,000 square feet**, making it ideal for both everyday use and emergency backup heat. Its **gravity-fed 40 lb. hopper** provides **8 to 16 hours of continuous burn time**, allowing users to stay warm with fewer refuels.

"The Mini Me Non-Electric Gravity Fed Pellet Stove is going to be a top seller for our company in the US and Canada. There is absolutely no other stove out there like it. No other gravity fed non-electric pellet stove has hit the 76% Efficiency rating making it eligible for the current tax credit" Dusty Henderson, President Flame Innovation.

Key Features:

- **Non-Electric Operation** – Provides dependable heat with no power required
- **BTU Range:** 12,567–29,388 BTUs
- **Heats Up To:** 1,000 sq. ft.
- **Extended Burn Time:** 8–16 hours per pellet load
- **High Efficiency:** 76% (HHV)
- **Ultra-Low Emissions:** 0.36 g/hr.

- **Durable Construction:** Made with 3/16" and 1/8" American steel
- **Pellet Feed Shut-Off Tool:** For added control and fire safety
- **40 lb. Hopper & Gravity-Fed System:** No augers or electronics
- **Brick Fire Pot & Removable Ash Pan:** For easier maintenance
- **Certified for Safety:** EPA-certified, UL-listed, and CSA-approved for mobile home use in the U.S. and Canada
- **3" Outside Air Inlet:** Supports sealed combustion
- **Fast Installation:** Compatible with 4" Class A stove pipe
- **Proudly Made in the USA:** Hand-built in Post Falls, Idaho
