

# ELECTRIC VEHICLES ARE COMING TO A FLEET NEAR YOU!

Find out what electrifying could mean for your operation.

Do you have an electrification plan?

Ameren Missouri has launched an initiative to support our fleet operating business customers. We are seeking key partners in our region to participate in a limited number of free fleet operation studies.

## Electrification Benefits

Establish your organization as a leader in innovation.

Realize your commitment to sustainability.

Foster employee satisfaction and pride.

Electrified fleets [SAVE MONEY!](#)

## eiQ Mobility Analysis

Ameren Missouri has contracted with the leading national fleet solutions provider eiQ Mobility to provide a select group of key customers a free fleet analysis. The process has been designed to be as simple as possible, using your fleet's data to provide a detailed analysis of technically and financially viable opportunities. The study will provide not only cost data but also sustainability impact information to help you meet your goals.

### EVs

Recommend least-cost EV models that meet class, daily trip, and operational requirements.

### EV Chargers

Recommend least-cost chargers that meet demand within available charge time by location.

### Total Cost

Estimate EV to ICE equivalent vehicle costs over asset lifetime.

### Sustainability

Compare EV to ICE equivalent CO2 emissions over asset lifetime.

## Ameren Missouri Is Here To Help

Early engagement with Ameren Missouri is your key to a successful implementation. Program support includes:

- Fleet analysis (limited availability);
- Assessment of existing load potential;
- Rate advisement; and
- Consultations and support throughout the process.

**Ameren Missouri is your energy advisor and here to help throughout the electrification process.**
