

Seeking Board Members

EnergyCare has been helping people with low and fixed incomes find safety from the extremes of temperature since 1983. Our mission is to:

Promote healthier, safer, and independent home environments by providing year-round energy-related services in St. Louis communities.

Our clients often face impossible choices such as paying for heat and air conditioning or buying food, filling their prescriptions, or paying rent. We primarily serve people who are most affected by extreme temperatures—older adults, people living with chronic diseases or disabilities, and families with children under five.

Our winter program helps people stay safe and warm during the cold winter months with heaters, blankets, home weatherization, furnace repairs, and emergency utility assistance. Our summer program ensures that people most in need stay cool during the hot summer months with fans, air conditioners, and emergency utility assistance. We also offer educational resources, advice, and referrals for anyone who calls our helpline.

New Board Members

We are currently seeking people to help expand our board in 2021. EnergyCare board members serve as crucial team members in steering strategic direction for our organization. We are seeking new board members with interests in social and environmental justice, economic security, energy efficiency, green energy, housing, healthcare, and public health. We are looking for people who can work with us to develop new partnerships, increase our visibility, integrate evaluation and research into our services, and/or provide new ideas into what we do.

BOARD TIME & FINANCIAL COMMITMENT

- Attendance at bi-monthly board meetings
- Participation in committee(s)
- No fundraising minimum
