

Yue Yu, PhD, is an Assistant Professor in the Department of Psychiatry and Behavioral Sciences at the University of California, Davis, and a faculty member at the MIND Institute. She completed her postdoctoral training at the UC Davis MIND Institute. Dr. Yu's research focuses on psychosocial outcomes in caregivers of autistic individuals and community implementation of evidence-based practices for young children with autism, with an emphasis on caregiver engagement. Her current study examines a strengths-based, mobile health approach to enhancing caregiver engagement in autism early intervention services.
