Dear Friends of HeartCentric Divine Creations and Gateways to Brilliance,

HeartCentric Divine Creations founders, Lana and Karina, are both immigrants from the former Soviet Union and have relatives and ancestors from Ukraine, some of whom have been directly impacted and displaced. Our entire team is heartbroken about the recent events in Ukraine. We stand with the citizens of Ukraine and our hearts go out to the citizens of Russia who never wanted this war and are now suffering as well.

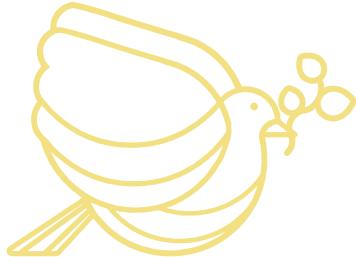

We are partnering with our good friend and lightworker, Carolyn Vinup of Gateways to Brilliance, to hold a Vigil for Peace. We believe that the power of prayer and positive intention towards all those suffering will help create a ripple effect of loving energy that will reach all those affected by war.

This vigil will honor them and all who are affected. If you have a pendulum, please bring it to the event. We will work with our pendulums to bring healing and loving energy to the world. Pendulums are energy tools when combined with prayer and positive intent encourage healing and connect the physical body to higher energies. Pendulums help us move into a state of balance, so we are better able to bring wellbeing into our lives and the world.

We will also have Ukrainian-inspired pendulums available for purchase with proceeds donated to humanitarian causes to help displaced Ukrainian citizens.

Carolyn has a beautiful Peace Pole in her backyard, where we will hold the vigil. Please dress for outdoor weather. This event is open to anyone who would like to join; please share this invitation with your friends and neighbors!

With Love and Light,  
Lana, Karina & Carolyn
