

## Income Eligibility Survey for Our School's Participation in the Federal Stimulus Program

The federal stimulus program known as Emergency Assistance for Nonpublic Schools (EANS) makes a portion of its funding based on the number of students who attend the school who would be eligible for the federal free and reduced price lunch program. Since we do not participate in that program and do not collect that information for our school community through other means, we need to ask you if you are eligible. We need a count of eligible students.
