

FLSA Status: Exempt, Learned Professional

Salary Range: \$40,000-\$60,000

Prepared: 05/2021

Community Health & Data Specialist

Organizational Overview:

HCSF is a private, not-for-profit corporation created under Chapter 408.033, Florida Statutes, with the mission of providing coordinated health planning designed to enhance the provision of accessible, affordable and high quality health care services to all persons residing in the service district, defined in the enacting legislation as Miami-Dade and Monroe Counties. HCSF is one of eleven local health planning councils under contract with the Florida Department of Health to perform various health care service responsibilities as designated in the statute. Florida Law establishes local health councils as a network of non-profit agencies that conduct regional health planning and implementation activities. HCSF has a long history and a broad range of experience in health services planning, research and community involvement.

Local health councils work with the various communities on efforts designed to improve access to health care, reduce disparities in health status, assist state and local governments in the development of sound and rational health care policies and advocate on behalf of the underserved.

Summary of Work:
