Robert Stempel College of Public Health and Social Work

Advancing your education to be a force for good demands dedication and guidance. At the Robert Stempel College of Public Health and Social Work, explore the interconnectivity of social, biological, environmental and cultural elements of health to be a force for positive change.

PUBLIC HEALTH

U.S. News & World Report ranked Stempel College's School of Public Health for the first time in the college's history—ranking 50th among public universities and 78th out of 177 overall. The School of Public Health includes concentrations in Biostatistics, Environmental Health Sciences, Epidemiology, Health Policy & Management, and Health Promotion & Disease Prevention.

SOCIAL WORK

U.S. News & World Report ranked the School of Social Work 53rd among public universities and 77th out of 261 programs nationally, an 11- point improvement. The School of Social Work offers programs of study that prepares graduates to work in governmental, academic, non-profit, and for-profit settings in community, regional, state and national systems.

DISASTER MANAGEMENT

The Academy for International Disaster Preparedness offers degrees in Disaster Management as well as certificate programs for emergency medical technicians, paramedics and drone training for disaster management. The Academy prepares students for rapidly evolving professions with a formal education in emergency response, international humanitarian relief and homeland security.

DIETETICS & NUTRITION

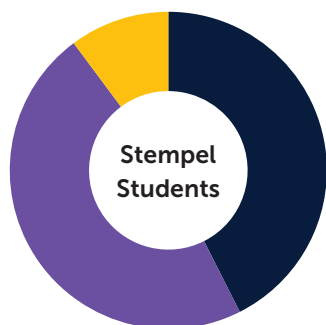

The field of dietetics and nutrition is dynamic and rapidly evolving as more research is elucidated on the relationships between food, nutrition, human health and disease. With a greater emphasis on preventive health care and improved eating habits, the programs offer lab training and community focused research to prepare students for careers in health care systems, home health care, food service, private business, research and educational organizations.
