The Agent's One Page Business Plan

One of the most important steps an agent can take in their business is to treat it like a business.

Having a written business plan is crucial to starting, growing, and even selling a business.

In this hands-on workshop, agents will explore the key elements to a business plan. Agents will learn how to properly identify their goals and how to put a plan into action to achieve their goals.

Agents will leave this workshop with a written business plan in hand that is custom tailored to their goals.
