

TITLE Human-Centered Exploratory Research for Acoustic ShrimpSense Prototype In Marine Operations (IRB: 26-198)

WHAT

We are studying how people in shrimp monitoring, aquaculture, fishing, marine research, or related fields monitor aquatic animals and environmental conditions.

This study has two phases:

- **Phase 1: Online Survey through Qualtrics**
Complete a short online survey about your experience with fishing, aquaculture, marine monitoring, or aquatic animals.
- **Phase 2: 1-on-1 Co-Design Session on Zoom**
Participants may participate in a separate 1-hour Zoom to review early ShrimpSense dashboard concepts and provide feedback.
- **Note: Participants may participate in Phase 1 only, Phase 2 only, or both phases, as long as they meet the eligibility criteria.**

WHO

- Be 18 years of age or older.
- Have experience or relevant academic, research, or practical knowledge in fishing, aquaculture, marine monitoring, or working with fish, shrimp, or other aquatic animals.

WHERE

- Phase 1: Online through a Qualtrics Survey.
- Phase 2: Online through Zoom (1-on-1).

DURATION

- Phase 1: Approximately 12 minutes or less.
- Phase 2: Approximately 1 hour.

COMPENSATION:

- Phase 1: No compensation.
- Phase 2: Participants will receive a \$50 digital gift card for approximately 1 hour of participation in the co-design session. The gift card will be provided after completion of the session.

Participation is voluntary. You can withdraw at any point.
