To register your child, please fill the following form: [Shnorhali School Registration Form](#) or use the QR code.

The school will offer a **Conversational Armenian class** to students who want to develop fluency and practice verbal communication with native Armenian speakers. This class will be offered to students who are only interested to develop their Armenian verbal communication and conversational skills. During this class, through discussion panels, informal talk, and formal conversations and presentations, students will gain experience in communicating and interacting in Armenian.

We will continue developing our comprehensive curriculum guided by students' needs and language proficiency and providing a suitable, nurturing, and supportive academic environment to ensure our children continue to learn, grow, and achieve their highest potential.
