

Fostering a healthier community together

IMPACT Connect is a partnership of agencies throughout Southeastern Wisconsin transforming the way health and social services are delivered to those who need them most. Our collaboration brings together medical, behavioral health, social service, and community organizations to build an accessible, integrated, and streamlined delivery system that fosters health and wellness for all.

We use the Community Information Exchange (CIE) model to provide a global view of a client's complex needs. Beyond a shared technology platform, IMPACT Connect is a coordinated system of service delivery driven by the shared knowledge and expertise of community partners.

The power of IMPACT Connect

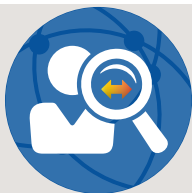

Shared leadership

Our partners shape our goals, measure outcomes, and provide full oversight to revolutionize how we can work together to achieve real, sustained change.

Relationships and engagement

IMPACT Connect's platform nurtures relationships and actively engages stakeholders and partners. By facilitating communication and coordination, creating powerful workflows across sectors, and consistently evaluating system effectiveness, we can better meet the needs of all people.

Comprehensive resource database

Our partners have access to the IMPACT 211 database, the largest, multi-sector directory in Wisconsin.

Sophisticated technology

Our advanced technology platform provides an integrated screening tool, a curated database of services with automated resource identification, and the ability to close the loop for streamlined, cross-sector coordination of care.

Powerful data, enhanced equity

IMPACT Connect data allows our partners to evaluate outcomes and pinpoint what works best — individually and as a collective community. Together, we ensure all people can access services, barriers are lifted, and gaps are filled.
