Join the East Bay Regional Park District for an unveiling of a historic panel installation in recognition of the Lafayette-Moraga Regional Trail's 45<sup>th</sup> Anniversary to be celebrated at the very site of the original dedication of the trail on July 4, 1976. During the early 1970's, two women known as "the bike ladies" – Avon Wilson and Lynn Hiden began advocating for bicycle safety in the Lamorinda area and promoted the idea of a trail to allow young people to safely ride bikes to and from school. Out of this initial idea, Lafayette City officials and Park District staff began planning one of the first regional trails for the Park District along an abandoned Sacramento-Northern Railroad right-of-way, which blazed the path for "Rails-to-Trails" projects in the United States.

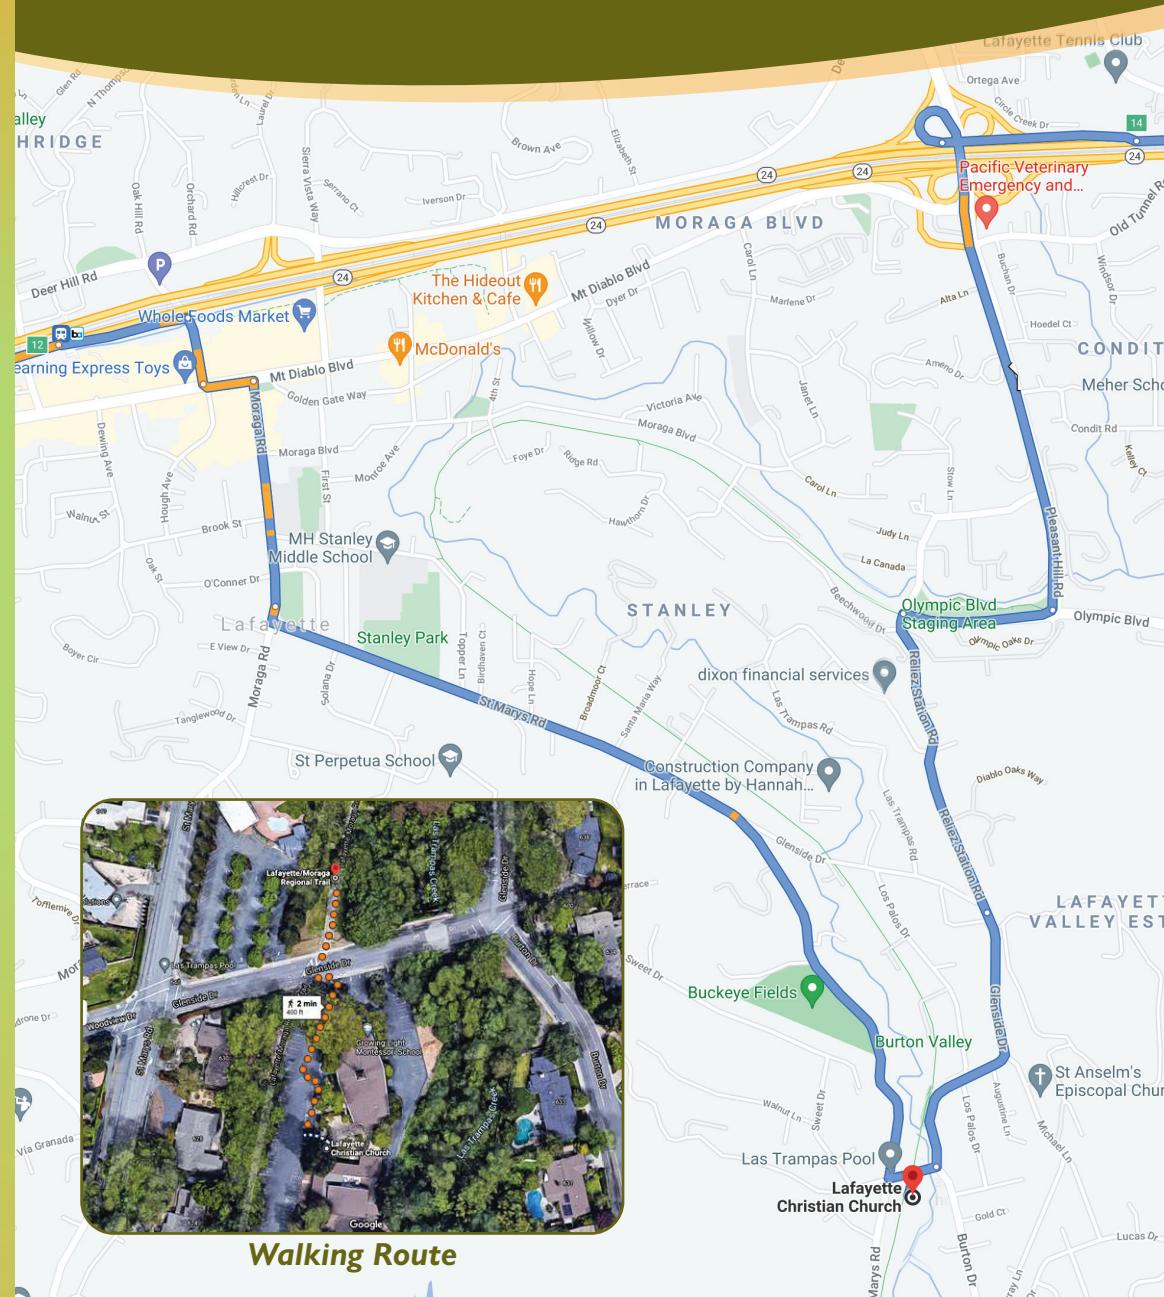

Come celebrate with original founders and current Park District staff and surrounding City officials, for the many years thus far that the Lafayette-Moraga Regional Trail has provided bike-riding, pedestrian, and equestrian recreation use linking the entire Lamorinda region. Stay on after the speaking program and unveiling for an ice cream social.
