

Why Choose North Avondale Montessori School?

Our goal is to develop the **total child** in the Montessori setting by providing a challenge, permitting children to **practice and learn**, and then applying the newly gained knowledge.

"The environment must be a living one, directed by a higher intelligence, arranged by an adult who is prepared for the mission."

Montessori:

Inspiring, Empowering,
Innovative, and Creative!

"We encourage creativity by guiding children to follow their curiosity and to become active, confident problem solvers. The Montessori classroom is created on the essential element of creativity across all academic subjects, including the arts. We use the Montessori materials to inspire the child's interest, involvement, and experimentation in the academic subjects. We believe each child has a unique way of learning and we use multi sensory activities to create an environment of freedom, acceptance, and trust. This atmosphere encourages creativity and excitement which enhances student learning."
