***Drugs 101: What Parents Need to Know*** seeks to educate parents about the various forms of drugs and the peer pressures facing students to use them.

A mock bedroom of a teenager serves as the backdrop to the two hour presentation. Parents will enter a mock bedroom that has been set up to resemble a teenage drug user's room. Parents are asked to identify drug and alcohol paraphernalia items that are placed within the bedroom.

Throughout the presentation, more than 80 trendy drug and alcohol indicators will be unveiled to show how some adolescents hide drug and alcohol use from their parents.

Signs, symptoms and current trends of gateway drugs will be discussed. In addition, the presentation will focus on Heroin/Opioids, Alcohol, "Vaping" and "Juuling."

Parents will be given an information packet regarding drug facts and tips on how to approach discussions regarding drugs with their teens. Also, a Rx Disposal Kit will be offered to participants (one per family).
