

SYNCHRONY SKILLS ACADEMY HIGH SCHOOL PROGRAM

The work world is changing. [Synchrony Skills Academy](#) was established to create a learning environment that allows students to reach their ambitions through tech training enabling them to compete for jobs in the future.

Our mission is to democratize technology training and empower communities to achieve their greatest potential.

High School Program

- After school and summer immersion experiences.
- Explore full-stack engineering, STEM, and robotics.
- Prep for college and future career by learning highly coveted technical skills.

Community College Program

- Explore new tech skills with a mini 3 week Winternship opportunity.
- Connect with fellow students and tech professionals.

Adult Career Development Program

- Reskill for in-demand jobs for those that are underemployed/ unemployed.
- Access Interview prep and career development services.

The Synchrony Skills Academy and The Synchrony Foundation has collaborated with [\(DAE\)](#) as the education partner for our **High School track** to bring their Digital Skills Program curriculum to local high school students.

WHAT STUDENTS ARE SAYING:

"We really start from the beginning. We build those communication skills and confidence with people around us."

*Sophia Aguirre
Westhill High School '22*

"I had never in the beginning thought of coding. After doing this program for almost five months now, I saw that I wanted to change my career."

*Nichole Samaniego
Westhill High School '22*

To sign up for our **2024 Summer** high school program and **2024- 2024 10 Month after school program**, please visit:

mydae.co/applystamford or scan the QR code.

Digital-focused. Humanity-centric.
6-Week Summer & 10-Month After-School
Computer Science Programs

Do you want to get a head start on a career in tech and learn how to make the tech you use every day?

What you can learn

All **dae** programs are hands-on: that means you'll be working on real projects from day one to develop real skills that can help you succeed in college, career, entrepreneurship and beyond!

All students at **dae** start with *SourceCode*, our crash course in everything you need to be a coder.

dae
SourceCode

- Python
- Version Control
- Logic
- Human-Centric Design
- Figma
- Collaboration Tools

Students then have the choice to explore three subject areas, IoT, Web Dev, and Game Dev. Based on the learning map they develop, they can learn different skills like:

IoT

- Electronics
- Circuits
- C++
- Embedded Systems
- Sensors
- IoT Cloud

Web Development

- HTML
- CSS
- JavaScript
- React
- BootStrap

Game Dev

- C#
- Unity Scripting
- UI Interface
- 2D + 3D Graphics
- 2D + 3D Mechanics

Good grades & tech skills aren't the only things that matter! **dae** also equips students with the 21st century skills employers and colleges look for like:

- Collaboration & Cooperation
- Hands-on Learning
- Commitment
- Critical & Creative Thinking
- Change Agency
- Passion & Perseverance
