

Café Cultura

Description/ Mission Statement

Café Cultura is a medium that brings artists, musicians, poets and social activists together to present their art and ideas. The intention is to create a space, both physical and ideological, that showcases the underlying art, culture, social issues and ideas that sometimes lay dormant because of a lack of platform. Ultimately, this will be a way to get involved in our community and take action to create an incredible place for generations to come, our elders and ourselves.

Search for Artists

Café Cultura is looking for like-minded, focused and passionate artists and activists who want to create a socially conscious community. If you're an artist or activist looking to get involved in the community and take action by using your art to spark social awareness of various cultures, social issues or ideas that are otherwise swept under the rug, then contact us! We are welcoming all artistic formats. If interested in participating submit a short description of yourself and sample of your work via email at cafecultura760@gmail.com or send us a message on our facebook page.
