

# Community vaping forum

## **Know the signs, dangers, and health risks**

With vaping on the rise in our community, especially among young people, the dangerous side effects are becoming painfully clear. Join Rogers Behavioral Health on Tuesday, October 15 for engaging presentations on vaping and an interactive panel discussion. Open to all members of the community, this free event will feature presentations from the Brown Deer Police Department, Children's Hospital of Wisconsin pediatric pulmonologist and assistant professor of pediatrics at the Medical College of Wisconsin, Dr. Louella Amos, and medical staff from Rogers' mental health and addiction treatment program, led by attending psychologist Dr. Amy Kuechler. After the presentations there will be an audience Q&A with each of the experts.

### **Learn more about:**

- The dangers of vaping
- How vaping is impacting the local community
- Ways teens try to hide vaping
- The impact of vaping on mental health and future drug use
- Treatment for mental health and addiction

**Tuesday, October 15, 6 to 8 pm**
