

## **You're invited to join a pilot study on adolescent SBIRT training!**

### **What's the study about?**

We are evaluating a brief, web-based training on delivering Screening, Brief Intervention, and Referral to Treatment (SBIRT) services for adolescents in pediatric primary care. Your feedback will help us assess the usefulness and effectiveness of this training for healthcare providers.

### **Who can participate?**

We are seeking:

- Pediatricians
- Nurse Practitioners
- Physician Assistants
- Nurses
- Other Pediatric Care Providers

### **What's involved?**

- View an online SBIRT training webinar
- Complete a few brief online surveys before and after the training
- Total time commitment: approximately two hours at your convenience

### **Why participate?**

- Contribute to improving SBIRT training for adolescent care
- Receive free access to evidence-based SBIRT training
- Receive \$100 compensation

### **Interested?**

Please send an e-mail to [SBIRTtraining@salud.unm.edu](mailto:SBIRTtraining@salud.unm.edu) to receive a link to participate in the study.

### **Study Director:**

Tim Ozechowski, PhD  
Research Professor, Department of Pediatrics  
University of New Mexico School of Medicine
