July 2026

52 Ways to Care for Creation

Week 28: July 5-11
Firework-Free-Fourth
This July 4, take a moment to reflect upon the environmental impact that traditional Independence Day activities have. In a day characterized by consumerism, single-use items, barbeques with excessive meat, and polluting fireworks, consider what eco-conscious product swaps you can make while celebrating.

Week 29: July 12-18
Start A Creation Justice Group At Your Church
Does your church have a creation justice/creation care group? If not, you can start one! Gather and discuss how your church can be involved in caring for the earth. Learn together, work together, come up with projects, and get involved in the work your community is already doing to heal the environment

Week 30: July 19-25
Visit Your Local Library!
Reusing and sharing books through your local library is a wonderful community resource and it's ecologically sustainable! Reusing books reduces production and waste. Do they have an ecology section? Maybe even a faith/ecology section? Many cities also have little "free libraries" with take-one-leave-one book policies! Check out some of these great authors who write about creation justice/eco-theology: Thomas Merton, Victoria Loorz, Rev. Talitha Amadea Aho.

Week 31: July 26-August 1
Rest and Reflect
"Speak to the earth and it shall teach thee...Ask the creatures of earth and sea for their wisdom." Job 12:8. What do God's creatures teach you? What can we learn from creation?
