TimberHaul

The Simple Supply Chain Solution

Replace the calls, spreadsheets, and paper with a single shared system of record. Dealers, Loggers, Drivers, Mills, Landowners, and Foresters can all coordinate their efforts and activities in Real Time.

- **Simplified 1 Hour Setup**
- **Manage Tracts & Contracts**
- **Create Loads Automatically**
- **Dispatch & Message Drivers**
- **Verify/Edit Load Info**
- **Track Trucks**
- **AI Ticket Scan with Verification**
- **Manage Loads & Quota**
- **Reconcile Tickets**
- **Run Reports**
- **Integrate with Accounting Apps**
- **Cost-Effective, Predictable, Crew-based Monthly Fee**

Six Steps to Success…

TimberHaul

Step #1 - Contact LandMark Spatial Solutions for a demo and pricing

- Call Johnny or Shane at 866-395-5330
- Visit www.timberhaul.com for more info

Step #2 – 1 hour Setup Session with LMSS

- Setup Tracts, Invite Loggers/Crews, Add Mills, Invite Drivers, Add Contracts, Create Loads

Step #3 – Dispatch Drivers

- Dealers or Loggers can assign loads to drivers ahead of time or in real time

Step #4 – Pickup Loads and Deliver

- Drivers have maps to tracts and mill (with Route Weights) if needed
- Drivers can take a picture of scale ticket and AI scans to verify and upload data

Step #5 – Dashboard Analytics

- Mills (if allowed) can track incoming loads
- Dealers and Loggers can track/edit loads and quota in real time and send/receive messages with drivers

Step #6 – Reconcile Loads/Reports/Integration

- Dealers, Loggers, and Foresters can reconcile loads with AI Ticket Scans
- Run Load Reports and export
- Integrate with FPA and other accounting apps
