How can you make Digital Dentistry Practical & Profitable to your practice?

Dr. Jill Park, DMD | Course Speaker

PROGRAM OVERVIEW

This course is designed to help general dentists understand how digital dentistry can be incorporated and practiced in much broader aspects in everyday practice. During the course, lecturer's experiences in digital dentistry as a general dentist will be shared. Various clinical cases will be discussed to demonstrate how digital dentistry can be applied and used from treatment planning to prosthetic and surgical setting. For those who want to begin implementing new technology in the office, this lecture will help you fully maximize the use of digital dentistry.

During this 8-hour training, the attendees will learn about the followings:

- 3D printer
- Night guard
- intraoral scanning (Medit)
- Diagnostic Wax Up
- CAD/CAM (Exocad)
- Denture
- Milling (Trumil250)
- Provisional for crowns and veneers
- Clinical applications of digital tools in daily practice
- Flipper
- Full Arch Planning

ABOUT DR. PARK

Dr. Jill Park received her bachelor's degree in Biology from the University of Massachusetts, Amherst in 2008 and graduated from dental school at Tufts University in 2012. She is the owner of the private practice, "JP Dental" in Hartford, CT since February 2016. She is also an active member of Academy of General Dentistry (AGD), International Congress of Oral Implantologists (ICOI), World Congress of Ultrasonic Piezoelectric Bone Surgery (WAUPS), and a Fellow of the Global Dental Implant Academy (GDIA). Dr. Park is a dynamic practitioner incorporating advanced disciplines in her private practice, including dental implants, periodontal plastic surgery, orthodontics, and full mouth reconstructions. A fellow of the International Congress of Oral Implantologists, and the Global Dental Implant Academy, Dr. Park is currently a lecturer at GDIA and a highly sought out speaker and social media influencer. She practices broad scope of general dentistry in Hartford, Connecticut.
