A few words of welcome

A new academic year began in July, and with it new growth in the **Core Internal Medicine Program**. We welcomed 20 new PGY1 trainees into the program - 14 at our Halifax training site, 2 at our regional training sites, and 4 at our Saint John, New Brunswick training site. We hope this newsletter will help introduce you to new faces in our Programs, and help all of us put the faces to names (or names to faces) for the trainees who have been with us for a year, or two, or more!
