

Give a Gift of Hope This Christmas

Honor someone you love. Support our partners in Malawi.

Malawi faces a severe economic crisis. Rising costs, drought, poor harvests, and the loss of outside funding have left many families struggling to afford food and medical care. Hospitals face shortages of essential medicines, and churches have fewer resources to sustain their ministries. Your gift can help our partners respond to these urgent needs.

Give in honor of someone special through the Presbytery of Western North Carolina's partnership with the Nkhoma Synod. Choose a ministry, give any amount, and share a gift insert inside your Christmas card.

1

CARE AND HEALING

Medicine at Nkhoma Hospital

Help provide nourishing food, particularly for children receiving care, and essential medicines for patients in need.

\$50 could provide oral antibiotics for approximately 50 young children.

\$100 could provide seizure medicine for approximately 20 patients for one month.

\$250 could provide approximately 250 doses of an injectable antibiotic used to treat serious infections.

2

LEARNING AND OPPORTUNITY

Student scholarships at Ebenezer

Your gift can help a child attend Ebenezer Institute of Learning, which serves children from prekindergarten through middle school in the Nkhoma community.

\$300 could provide a student scholarship to attend for one year.

3

PREPARING PASTORS

Student scholarships at JMTI Seminary

Help prepare pastors for a synod of more than 800,000 Presbyterians, where congregations often have more than 1,000 members.

\$500 can cover one semester of study. Gifts of any amount will help students prepare to serve.

Medicine examples are estimates based on prices supplied by our hospital partners. Actual costs and needs vary.
