Tropical depression Fred on August 17, 2021 dropped a foot of rain in Western North Carolina, devastating towns like Canton and Cruso. The Pigeon River ravaged homes and campgrounds, leaving wreckage behind in its path.

PDA is working with the Methodist and Baptist on Mission organizations to organize work teams.

12 workers spent the whole week, 6 more came and went through the week. Some worked for one day, others worked for two days. Flexibility is the name of the game. Calvary Baptist Church has opened their doors for teams to stay. They brought in a fantastic shower trailer!!!

We put up insulation in the basement floor joists. Moving the homeowners' belongings from side to side as we worked. Working above your head is hard.

We tore up old warped flooring and put down new laminate flooring. Working on your knees is hard.

We built a new ramp. These guys worked hard in the hot sun.

We had great food, wonderful fun and fellowship,
meaningful devotions..... Join us next time!!!
